**Goto Offshore Wind Farm Begins Commercial Operation**  
**- Japan's First Commercial Floating Wind Power Project -**

Goto Floating Wind Farm LLC (hereinafter "SPC") announced that commercial operation of "Goto Offshore Wind Farm," (hereinafter "wind farm") Japan's first commercial floating offshore wind farm, began on January 5, 2026.

The wind farm is the first facility of its kind in Japan to be certified by Japan's Minister of Economy, Trade and Industry and Minister of Land, Infrastructure, Transport and Tourism under the Act on Promoting the Utilization of Sea Areas for the Development of Marine Renewable Energy Power Generation Facilities (Marine Renewable Energy Sea-Area Utilization Act). It is also Japan's first commercial floating offshore wind farm.

The wind farm employs a hybrid spar-type floater featuring a steel upper section and a concrete lower section. This structure was designed and built by TODA CORPORATION, SPC's lead company, and represents the world's first commercial application of hybrid spar-type floater technology.

Many local companies participated in the construction of the wind farm. Local companies are also expected to be involved in the wind farm's operations and maintenance. In keeping with the principle of local energy production for local consumption, the electricity generated will be supplied preferentially to local retail electricity providers.

Through the long-term operation of the wind farm, SPC aims to promote renewable energy and help improve the quality of life for local communities.

### Timeline

Dec 2019	Designation of the Goto-city offshore area (Nagasaki Pref.) as a “promotion zone” under the Marine Renewable Energy Sea-Area Utilization Act
Jun 2020	Launch of the public tender based on the occupancy guidelines for the Goto offshore area
Dec 2020	Submission of the occupancy plan for the tender
Jun 2021	Selection of the preferred bidder
Oct 2021	Establishment of Goto Floating Wind Farm
Apr 2022	Certification of the submitted occupancy plan
Aug 2022	Grant of sea-area occupancy permit and start of offshore construction
Jan 2026	Start of commercial operation

### About the Project

<b>Project title</b>	Goto City Offshore Wind Power Generation Project
<b>Operator</b>	Goto Floating Wind Farm LLC
<b>Power generation facility</b>	16.8 MW floating offshore wind power generation facility (8 x 2.1 MW units) (Total length 176.1m, rotor diameter 80m)
<b>Headquarters</b>	Goto City, Nagasaki Prefecture, Japan
<b>Start of operations</b>	January 5, 2026
<b>Shareholders</b>	TODA CORPORATION ENEOS Renewable Energy Corporation OSAKA GAS CO., LTD. INPEX CORPORATION The Kansai Electric Power Co., Inc. Chubu Electric Power Co., Inc.

【Profiles of Consortium Member Companies】

TODA CORPORATION

Established	July 1936
Representative	Otani Seisuke, President and Representative Director
Head Office	1-7-1 Kyobashi, Chuo-ku, Tokyo
Business Areas	<ul style="list-style-type: none"> <li>• Research, planning, design, management, and execution related to all aspects of architectural and civil engineering comprehensive engineering and consulting related thereto</li> <li>• Research, planning, design, management, and execution related to local development, urban development, etc.; comprehensive engineering and consulting related thereto</li> <li>• Real estate sale and purchase, rental, intermediary services, management, and appraisal</li> <li>• Power generation and related business using renewable energies, etc</li> </ul>

ENEOS Renewable Energy Corporation

Established	August 2012
Representative	Onoda Yasushi, Representative Director, President and CEO
Head Office	Azabudai Hills Mori JP Tower, 1-3-1 Azabudai, Minato-ku, Tokyo
Business Areas	Preliminary surveys, planning, design, materials procurement and sales, civil engineering, electrical service, construction, operation, maintenance and inspection work, and electric power sales pertaining to power generation plants (wind, solar, biomass, and other natural energy-based power generation)

OSAKA GAS CO., LTD.

Established	April 1897
Representative	Fujiwara Masataka, Representative Director and President
Head Office	4-1-2 Hirano-machi, Chuo-ku, Osaka
Business Areas	<ul style="list-style-type: none"> <li>• Production, supply and sale of gas</li> <li>• Power generation and sale of electricity, etc.</li> </ul>

INPEX CORPORATION

Established	April 2006
Representative	Ueda Takayuki, Representative Director, President & CEO
Head Office	Akasaka Biz Tower, Akasaka 5-3-1, Minato-ku, Tokyo
Business Areas	In addition to conducting domestic and overseas exploration, development, production and marketing of crude oil, natural gas and other mineral resources, we are also engaged in new-energy initiatives such as renewable energy, hydrogen, CO <sub>2</sub> capture and storage (CCS) and methanation.

The Kansai Electric Power Co., Inc.

Established	May 1951
Representative	Mori Nozomu, Director, Representative Executive Officer,

	President
Head Office	3-6-16 Nakanoshima, Kita-ku, Osaka
Business Areas	Electric power, heat supply, telecommunications, gas supply, etc.

Chubu Electric Power Co., Inc.

Established	May 1951
Representative	Hayashi Kingo, President & Director
Head Office	1, Higashi-shincho, Higashi-ku, Nagoya, Aichi
Business Areas	Renewable energy business, overseas business, community support infrastructure related business, etc.
